🔄 Mukesh Jena

Profile

I am Mukesh Jena, proficient in Flutter, Java, UI/UX. My versatile skill set empowers me to craft cross-platform mobile apps and web solutions, driven by a passion for innovation and a commitment to excellence.

Education

Bachelor of Technology in Computer Science & Engineering

2020 – 2024

Gandhi Engineering College - Bhubaneswar,Odisha

12th Grade

2018 – 2020

NIST Higher Secondary School - Balasore,Odisha

Experience

UI/UX Designer Training

Jun 2023 – Sep 2023

Microsoft

- Completed UI/UX training in Figma through Microsoft's program.
- Received valuable guidance from Gynaholic for enhancing design skills.

Software Developer Intern

Jul 2023 – Aug 2023 | Bhubaneswar, Odisha

Web Bocket

- Led the UI design phase for a Point of Sale (POS) software using Figma, creating a visually captivating user interface.
- Implemented the design into a functional Android application using XML and Java, enhancing the software's usability and performance.
- Worked closely with senior developers, gaining insights into project collaboration and teamwork.

Android Developer & UI/UX Designer

Bhubaneswar, Odisha

Prince Corp

- Collaborated closely with a friend's dream company, contributing to UI/UX design for websites and mobile apps using Figma. Created multiple Android apps with Flutter, XML & Java.

Projects

BrowserX

Sep 2023 – Sep 2023

- BrowserX, a feature-rich web browser developed using Flutter.
- Integrated Unsplash API for dynamic backgrounds and InAppWebView for seamless web searches.
- Incorporated NewsAPI for real-time news updates, ensuring user engagement. Used Sqflite for local data storage, delivering a personalized browsing experience.

Portfolio Website

May 2023 – Jul 2023

- This is my portfolio website, I have provided my skills, education, and all the projects that I did in the past.
- This website is built using HTML, CSS, JS, and integrated SMTP.js to enable real-time email notifications.
- I hosted the website's front-end on Netlify for seamless accessibility and high availability.

WhisperWaves

Jun 2023 – Aug 2023

- WhisperWaves, a secure chat application using Flutter, Firebase Auth, and Firestore. The app facilitates private conversations between users.
- Proficiently integrated Firebase Authentication and Firestore for robust user management and data storage, enhancing the app's reliability and scalability.
